An applicant that is a new provider not currently enrolled in Medicaid shall provide a signed affidavit stating that proof of Medicaid participation will be provided to the Department

within six (6) months from the offering of services if a CON is approved. (B) provide acute inpatient mental health services to any individual based on clinical indications of need for the services;

(C) maintain information by payor and non-paying sources to indicate the volume of care from each source provided annually.

The contract must address a single entry and exit system including discharge planning for each public patient. The contract shall specify that at least 50% or 80% of the approved beds, as required by the applicable sections of these standards, shall be allocated to the public patient, and shall specify the hospital's or unit's willingness to admit patients with an involuntary commitment status. The contract need not be funded.

(x) An applicant shall participate in Medicaid at least 12 consecutive months within the first two years of operation and continue to participate annually thereafter.

(2) Compliance with Section 11 shall be determined by the Department based on a report submitted by the applicant and/or other information available to the Department.
